SKILLS

Flutter Dart Kotlin / Java

Swift BLoC REST API

WebSocket Firebase Git

Android iOS CI/CD

HIGHLIGHTS

- 10+ apps shipped to App Store & Google Play
- End-to-end ownership: architecture → release
- Cross-platform: Flutter, native Android & iOS
- Domains: logistics, e-commerce, CRM/ERP, fintech

PROFILE

Mobile developer building cross-platform apps since 2021, with 10+ products shipped to the App Store and Google Play. I work across Flutter, native Android (Kotlin/Java) and iOS (Swift), delivering logistics, e-commerce, CRM/ERP and marketplace apps end-to-end — from architecture and API integration through to release for real businesses.

EXPERIENCE

Flutter Developer

Sep 2023 – Present

Prolab

Lead developer of the company's mobile products. Ship and maintain production Flutter apps (logistics, e-commerce, CRM/ERP) on the App Store and Google Play — owning architecture, REST/WebSocket integration, state management (BLoC) and release.

Android Developer & Instructor

Jul 2021 – Aug 2023

Geeks

Taught native Android development while building client apps. Mentored junior developers and delivered a full Android curriculum, from fundamentals to publishing on Google Play.

Android Developer

Dec 2019 – Mar 2020

Next Innovation Studio

Sole application developer — designed and built native Android apps independently, from UI to API integration and release.

SELECTED PROJECTS

Intex Cargo — Logistics platform: orders & real-time cargo tracking

NurCrm — Mobile CRM + ERP — clients, sales & inventory

Amanat Store — E-commerce app with loyalty & order management

iBonus — Cashback & loyalty — QR points and redemptions

AravanGo — Local classifieds: jobs, housing, goods & services

UniPulse — Academic social network for university students
